Name of product

parodur Liquid
Gentle periodontitis and periimplantitis prophylaxis

Gentle protection of teeth and implants by effective gingival care.
Reduces bacterial plaque and prevents its reformation.

Ingredients

AQUA, XYLITOL, PEG-40 HYDROGENATED CASTOR OIL, CHLORHEXIDINE DIGLUCONATE, MENTHA PIPERITA OIL, SODIUM SACCHARIN, SODIUM BENZOATE, POTASSIUM SORBATE, SODIUM FLUORIDE, CI 19140, CI 42090, LIMONENE
Contains 250 ppm sodium fluoride
Without alcohol

Uses and Properties

parodur Liquid is used for the care of the gums and oral mucosa as well as the prevention of inflammations of the periodontium (periodontitis and periimplantitis) and the gums (gingivitis). *parodur* Liquid can also be used for relief and follow-up care of patients with reduced general condition (e.g. smokers, diabetics, cancer therapy or also in the case of rheumatism). Fluoride and xylitol protect from caries and fluoride additionally helps against sensitive tooth necks.

Application

To optimise your mouth and tooth care use *parodur* Liquid 1 - 2 times a day after teethbrushing. Fill the dosing cap with 10 ml of the ready to use solution and rinse your mouth thoroughly for 30 seconds. Do not rinse with water afterwards.

Notice

Treatment is not recommended in the case of known allergies to one of the ingredients.

Shelf life

The mouth rinsing solution can be kept for 6 months after opening.

Dosage form and pack size

200 ml e

Ready to use solution filled in a PET-bottle, includes a dosing cap.
